WILL TRY CHAPMAN

Newberry Orders Court-martial for Rev. H. W. Jones.

MUST ANSWER TWO CHARGES

Seventeen Specifications Filed Alleging Failure to Pay His Debts. Man of the Cloth Also Accused of Falseness in Connection with the Controversy Over the Note.

Acting Secretary of the Navy Newberry yesterday issued an order summoning Chaplain Harry W. Jones, U. S. N., before a court-martial to be tried for scandalous conduct to the destruction of good morals, and on a second charge alleging falseness. Under the first charge there are seventeen separate specifications, and under the second, one.

Complaint against the chaplain has been coming into the Navy Department for a long time, but owing to the natural reluctance of the department to try a chaplain by court-martial, and, furthermore, because of the inability of the navy to summon civilian witnesses, the officer has been dealt with rather leniently, and every opportunity has been given him to remedy his alleged shortcomings.

Liberal with Checks.
The seventeen specifications in the charge allege failure to pay just debts and the issuance of worthless checks. The complaints set forth that Chaplain Jones carried a checkbook, and whenever pressed for a claim would draw a check to satisfy the creditor. It is charged that when the checks were presented for payment it was found that there was no money in the bank to his credit.

A majority of the checks were given in favor of merchants in Norfolk, Baltimore, and New York. Efforts to induce him to straighten out these matters and adjust his debts satisfactorily have failed, and there has remained nothing for the department to do but to order his trial by court-martial.

Charge of Falseness.
Regarding the second charge of falseness, it is alleged that Chaplain Jones drew his note for \$1,200. When it was presented for payment he refused to take up the note on the ground that the amount had been raised from \$200 to \$1,200. An examination is said to have shown clearly that the full sum, \$1,200, was plainly in the chaplain's handwriting, and that no attempt whatever had been made to tamper with it.

The members of the court which will try Chaplain Jones are Capt. Daniel D. V. Stuart, Capt. Alfred Mertz, Capt. Charles Laird, retired, Capt. Henry Minott, retired, Medical Inspector S. H. Dickinson, Commander H. G. Leopold, retired, Lieut. Commander Isaac K. Seymour, retired, Commander J. J. Knapp, judge advocate. It is probable that the trial will take place at Norfolk.

GETS BRAND-NEW FLOOR.

Improvement Being Made Around Secretary Cortelyou's Office.

Improvements costing nearly \$2,000 are being made to the floor on the second story of the Treasury Department building, in the corridor near where Secretary Cortelyou's office is located. A brand new marble tiling floor is being put down in the southeast corner of the structure.

The floors of the other hallways are of a cheaper material in square blocks. Every other square is black, while the remaining ones are dirty-looking white. To eliminate this feature, with the hope of giving the hall near the Secretary's office more light, the costly new tile has been laid.

LIPTON GIFT ENTERED FREE.

Treasury Remits Duty on Cup Offered Boston Fishermen.

The silver cup that arrived at New York Tuesday, a gift of Sir Thomas Lipton, to be offered as a prize in a series of races to be run by fishermen at Boston during Old Home Week, will be admitted free of duty.

An order to this effect was issued yesterday by Acting Secretary Reynolds, of the Treasury Department. The loving cup is a handsome piece of silver, appropriately inscribed, and bearing the name of the donor.

NEWS CUT SHORT FOR BUSY READERS.

Things will be flowery at Great Falls this afternoon, when the Washington Florists' Club will celebrate its annual outing.

Uncle Sam is to have better postal service as an improvement in the stamped envelopes. Complaints from the postmaster, and the officials have decided in favor of the plan.

The Banco Industrial de Santiago, San Juan, Porto Rico, has been placed under the ban of the Post-office Department. It is alleged that the concern used the mails to conduct a lottery.

A frightened horse ran over and badly injured Mrs. W. F. Brown, of the Montrose Hotel, at Twelfth street and Pennsylvania avenue, shortly after noon yesterday. Police Surgeon Alfred Richards is the owner of the animal.

The compromise of three grade damage suits was confirmed by Justice Anderson yesterday, being those of Mary A. Foley, owner of premises at F street, \$1,750; Martin Casby, owner of 18 F street, \$1,825; and Margaret Wile, owner of 20 F street, northwest, \$1,675. By the compromise the District saves \$625.

Contracts for painting various school buildings have been awarded as follows: To M. F. Nicholson, the Ambush and Lincoln schools, at \$103 and \$127; to F. M. Brinkley, the Loring Building, \$115; the Turner Building, \$116; and the Bowen Building, \$116; and to Charles J. Klier, the Barnhart Building, \$185.

The will of Asa M. Daniels, dated April, 1894, was filed for probate yesterday. A watch and chain is bequeathed to his son, A. M. Daniels, and the residue of his estate, including the property at Fourteenth and F streets northwest, is devised to his widow, Mrs. Anna V. Daniels. The widow is named as executrix.

Typhoid fever conditions continue to show an increase, according to the report of the health department for the week ended July 23. There were five deaths from the disease, eighteen new reports received, and two discharged as recovered, leaving eighty-one cases under treatment, as compared with seventy at the close of the previous week.

The Union Station grade damage commission yesterday reported its apportionment of damages resulting to the property of Alfred P. Lang, Elizabeth Albers, Francis Winslow, Augustus Jay, and the American Security and Trust Company, in square 772, bounded by Third, Fourth, and M and N streets. Mr. Lang was awarded \$875 and Mrs. Albers \$600 damages.

OPINION NOT DECISIVE

Cause of Accident on Georgia Still in Doubt.

FLAREBACK THEORY MODIFIED

Board Appointed to Investigate Disaster on Battle Ship Submits Complete Report to Navy Department. Relatives of George Kreiger Request Body Be Sent to California.

The complete report of the board appointed to investigate the disaster on the battle ship Georgia a week ago last Monday has reached the Navy Department, but no action has yet been taken upon it. In view of the testimony adduced before the board, there is still some grave doubt as to whether or not the accident actually was caused by a delayed flareback, as the board reports. The board, in its findings, said that the accident "apparently" had been caused by a delayed flareback, due to the shutting off of the air blast too soon.

Opinion Not Decisive.
It appears from the testimony that one officer made the statement that he had gone into the turret several minutes after the explosion and had found the air blast still on, and that he turned it off himself; also that the breech of the other 8-inch gun in the turret was not closed. In view of this fact, the opinion that a flareback caused the accident, is not decisive.

The board makes several recommendations, but the department has not had time to consider these.

Relatives Ask for Body.
Relatives of George Kreiger, one of the victims of the disaster, have asked the Navy Department to have his remains shipped to them in California. Kreiger is the man who enlisted and was known in the navy under the name of George Miller. He said his home was in Memphis, Tenn., and that he had no relatives.

He is supposed to have been the man who had the powder in his hands at the time it was ignited, and was one of the first to die.

Condition of Injured.
The following is the condition of the Georgia's injured, as reported to the Navy Department yesterday:

"Messrs. Fong, and Thomas had a restless night, and are extremely weak, this morning. Bush had good night; little stronger this morning. Others doing well."

LETTER CARRIER HELD.

Frank B. Reed Charged with Violating Postal Regulations.

United States Commissioner A. S. Taylor yesterday held Frank B. Reed, a letter carrier, for the grand jury, on a charge of having violated certain sections of the government postal regulations. His bond was placed at \$500, which was produced and he was released.

Marked stamps and sums of paper and silver money which had been placed in a letter by Inspector Barclay, of the Post-Office Department, figure in the case. This letter had passed through Reed's hands, it was said at the hearing, and had not been delivered to the address, Mrs. Charlotte Rangely, 1738 Fifth street.

The marked stamps, Mr. Barclay testified, had been found in Reed's drawer at his post-office. Attorneys for the defense contended that there was nothing to show that Reed had secreted, embezzled, or destroyed the letter which was found in his mail pouch.

PRACTICING LAW IN IDAHO.

Carlton Fox, Formerly of This City, Established in Wallace.

Carlton Fox, formerly a resident of Washington, has established himself in the practice of law at Wallace, Idaho, and has been admitted to partnership with one of the best-known attorneys of that town.

Mr. Fox is a son of William C. Fox, formerly director of the Bureau of American Republics, and now United States Minister to Ecuador. He is a graduate of the law department of George Washington University.

REAL ESTATE NOTES.

Moore & Hill yesterday announced the sale of the property at 707 Randolph street, Potomac, for Abner Greenleaf, of Baltimore, to a Washington purchaser, who will make it his home. The price paid for the property was about \$6,000. The lot is 30 feet by 130, and is improved by a semi-detached house, two stories high, with cellar and attic. The house is one of the five built about a year ago by George Hough for Mr. Greenleaf. It is brick with pebble-dash exterior, having eight rooms and bath.

Application was made yesterday in the Supreme Court of the District, by Atkinson & Ballard, through Attorney George C. Gertman, for leave to change the name of the firm to that of Ballard & Latham. The old firm, like the new, was engaged in a general real estate business. The cause for the change of name grows out of the resignation from the firm of Joseph R. Atkinson, and the confusion said to attach to retaining his name in that of the business.

A building permit has been issued to the Junior Department of the Y. M. C. A. for repairs and alterations to the building at Seventeenth and G streets northwest. Harding & Upman prepared the plans for the improvement, which is estimated to cost \$10,000. S. J. Prescott & Co. are the builders.

Representative George F. Huff, of Pennsylvania, was yesterday granted a permit for the erection of a handsome residence, which Henry L. Brown will construct for him at 1622 Eighteenth street northwest, at a cost of \$25,000. The plans for the house were drawn several months ago by Horace Trumbauer, of Philadelphia.

Charles W. King will erect at 522 to 532 Kenyon street northwest six two-story frame dwellings, at a cost of \$19,600. The W. T. Haller Company prepared the plans for the houses.

At a meeting of the directors of the Hotel Randolph Company it was decided to postpone the award of contract and other matters until another meeting, to be held next week.

Land Fraud Cases Postponed.
Counsel for the government and the defense agreeing, the so-called land fraud cases against Benson, Hyde, Dimond, and Schneider will not be called at the fall term of court, but probably in January. The main reason for this action is the fact that the District Attorney's office has not sufficient funds to insure a proper prosecution of the case. There are nearly 500 witnesses to be heard and to be paid, and Congress at the last session allowed only \$12,000 for witness fees during the current year.

DINGLEY LAW TEN YEARS OLD.

Measure May Remain on Statute Books a While Longer.

Yesterday was the tenth anniversary of the enactment of the Dingley tariff law, and if Senator Hopkins, of Illinois, correctly quoted the President at Oyster Bay the other day, the law may remain on the statute books in its present form for another two years or so. The collection of customs duties under the Dingley law in the decade ended yesterday have amounted to \$2,527,698,823, these figures including all except the collections made in the last seven days of July, 1897, of which no separate record was kept.

The largest revenue results of the Dingley law were realized in the fiscal year closed June 30 last, when the collections amounted to more than \$333,000,000, or more than \$1,000,000 a day for every business day during the year. The value of manufactured products in the United States, some of which have been "protected" by the Dingley law, has increased to a larger extent even than the customs collections. In the five years from 1901 to 1905 the customs receipts were \$1,390,583,247, but the gain in value of manufactured products was, in the same years, \$1,787,859,559.

Should the Dingley law remain in force unamended until the spring of 1909, the total collections of revenue under its provisions will probably exceed \$3,000,000,000.

WRECK HEARING FINISHED.

Grand Jury Complete Investigation of Terra Cotta Disaster.

The grand jury has finished the investigation in the Terra Cotta wreck December 30 last, and has turned over to the district attorney's office its findings. What the conclusions of the grand jury were in the matter, and whether any indictments were returned is problematical, the grand jury being sworn to secrecy as regards its transactions.

It is not at all unlikely that the grand jury has arrived at the same conclusions as did the coroner's jury when that body investigated the disaster. It will take the district attorney's office some time to prepare the indictments in the case, and whether any of the greatest importance and most voluminous.

POLICE MAKE LOSS GOOD.

Shortage in P. P. A. Fund Covered by Athletic Game Receipts.

It is announced that the beneficiaries of the Police Protective Association, who were the losers by the alleged defalcation of J. Arthur Kemp, chief and property clerk of the police department, will be fully reimbursed.

The money realized from the sale of tickets to the police department's field-day sports, held at the National Baseball Park recently, it is said, is sufficient to cover the amount missing from Kemp's accounts as custodian of the funds of the association. The receipts of the field day have been deposited in bank, and will probably be paid to the beneficiaries next week.

RAISES PAY OF PRESIDENT

Dominican Ruler Hereafter Will Receive \$10,800 a Year.

The administration of the Dominican finances for the last two years by American customs officials has been so successful that the President of the Dominican republic will get a raise in pay. In the future he will receive \$10,800 instead of \$7,200 per annum, which is his present rate of pay. The Bureau of Insular Affairs yesterday received a copy of the Dominican budget for the fiscal year 1907-08, which begins on August 1. It contained the news of the increase in the President's salary. It shows, moreover, that the secretaries of the several departments of the republic have also received substantial increases in salary. The members of the Dominican Congress did not forget themselves in the general increases of pay, which were generously bestowed on almost all of the officials, including many subordinate customs officers.

The budget for 1908 places the estimated customs receipts at \$3,150,000. For the year ended July 31, 1907, the estimated revenues were \$2,580,000, while the actual receipts at the various custom-houses were \$3,181,763, leaving an excess in the actual over the estimated revenues of more than \$600,000. If the past increases in the revenue of the republic are maintained for the coming fiscal year, the customs officials expect revenues amounting to about \$10,000 more than the estimated for the corresponding period two years ago. During the first year of the American receivership the receipts were \$2,502,154.

The budget for next year includes \$484,000, which is appropriated for the use of the department of public works and improvements, the greatest part of which will be spent in the construction of railroad bridges and similar public works.
